Amazon CloudFront

Amazon CloudFront

Answer: B

NEW QUESTION: 4

Upgrading vCenter Server with Microsoft SQL database fails with the following error message:

The DB User entered does not have the required permissions needed to install and configure vCenter Server with the selected DB. Please correct the following error(s): %s What could cause this error?

- A. incorrect database on the SQL server
- B. incorrect permission on SQL Server database
- C. incorrect ports open on SQL Server
- D. incorrect compatibility mode on the SQL server

Answer: D

Explanation:

Explanation/Reference:

Explanation/Reference:

Problem

The following error message appears: The DB User entered does not have the required permissions needed to install and

configure vCenter Server with the selected DB. Please correct the following error(s): %s Cause The database version must be supported for vCenter Server. For SQL, even if the database is a supported version, if it is set to run in compatibility mode with an unsupported version, this error occurs. For example, if SQL 2008 is set to run in SQL 2000 compatibility mode this error occurs.
