NEW QUESTION: 3

While defining the portfolio mix, the portfolio manager performs a categorization of the portfolio components based on multiple categorization criteria. Which of the following is considered as a portfolio component category?

- A. Process Improvement
- B. Continuous Improvement
- C. Risk Reduction
- D. All of the options

Answer: D

Explanation:

Explanation

The number of categories is usually limited. Examples include: Increased profitability (revenue increase, generation, cost reduction and avoidance), Risk reduction, Efficiency improvement, Regulatory/compliance, Market share increase, Process improvement, Continuous improvement, Foundational (e.g., investments that build the infrastructure to grow the business), and Business imperatives (e.g., internal toolkit, IT compatibility, or upgrades)
