NEW QUESTION: 1

Your experience has taught you that inappropriate responses to cost variances can produce quality or schedule problems or unacceptable project risk. When leading a team meeting to discuss the importance of cost control, you note that cost control is concerned with _____

- A. Allocating the overall cost estimate to individual work items
- B. Establishing a cost performance baseline
- C. Developing an approximation of the costs of the resources needed to complete the project
- D. Influencing the factors that create change to the authorized cost baseline

Answer: D

Explanation:

The control costs process is also concerned with ensuring that requested changes have been acted upon, managing actual changes if and when they occur, ensuring cost expenditures do not exceed authorized funding, monitoring cost performance, preventing unapproved changes from being included in the reported cost or resource use, informing stakeholders of all approved changes and their costs and bringing expected cost overruns within acceptable limits.
