**Answer: A**

**NEW QUESTION: 3**

- A. Option C
- B. Option D
- C. Option E
- D. Option B
- E. Option A

**Answer: C**

Explanation:

Let's have a look at the access list 104:

The question does not ask about ftp traffic so we don't care about the two first lines. The 3rd line denies all telnet traffic and the 4th line allows icmp traffic to be sent (ping). Remember that the access list 104 is applied on the inbound direction so the 5th line "access-list 104 deny icmp any any echo-reply" will not affect our icmp traffic because the "echo-reply" message will be sent over the outbound direction.

**NEW QUESTION: 4**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution. After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You administer the Microsoft Exchange Server 2007 environment for that has 2,500 mailboxes. You plan to migrate to Office 365 and Exchange Online.
