That means once you get the NRN-522 certification you will get a better life.

NEW QUESTION: 1

Which of the following commands is most useful for viewing large files?

- A. less
- B. touch
- C. cp
- D. cat

Answer: A

Explanation:

The less command is most useful for viewing large files. The less command displays the output of a file one page at a time.

Viewing large files through cat may take more time to scroll pages, so it is better to use the less command to see the content of large files.

Answer A is incorrect. The cat command is also used to view the content of a file, but it is most useful for viewing short files. Answer D is incorrect. The cp command is used to copy files and directories from one location to another. Answer C is incorrect. The touch command is not used to view the content of a file. It is used to create empty files or to update file timestamps.

NEW QUESTION: 2

Which two statements are true about af:tree? (Choose two.)

- A. Trees can display, at the most, a three-level-deep hierarchy.
- B. You can specify a filter for a tree's node based on an attribute value at design time.
- C. To modify the data fields shown in a node of a tree created with ADF binding, you need to edit the tree bindings.
- D. You can show only one outputText per node in aftree.

Answer: B,D

NEW QUESTION: 3
