#### **NEW QUESTION: 1**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

On a Contact record, a user creates a note that contains the word running.

One week later, the user reports that they cannot find the Contact record associated with the note.

You need to find the note.

Solution; Use Quick Find search on the Notes list to search for

the word run Does the solution meet the goal?

- A. No
- B. Yes

**Answer: A**

**NEW QUESTION: 2**

Study the following image showing pan: of the flow within a process:

- A. There is a missing Resume stage on one of the routes through the flow.
- B. There is a missing Recover stage on one of the routes through the flow.
- C. If an exception is thrown in the Cancel Reservation page and is allowed to bubble up to be caught by the Recover stage, the Create Reservation action won't be retried.
- D. The Retry Count is not being incremented for each retry.

**Answer: C,D**

**NEW QUESTION: 3**

Which of the following three options represents the components of the Teleworker Solution? (Choose three.)

- A. Catalyst 3560 Series Switch
- B. Cisco Unified IP Phone
- C. Cisco 2900 Series Router
- D. Aironet Office Extend Access Point
- E. MPLS Layer 3 VPN
- F. Leased lines
- G. Cisco 880 Series Router

**Answer: B,C,G**

Explanation:

A Cisco ASR is used to terminate Teleworker solutions, not a 2900 series router.

Hybrid teleworker uses Aironet, Advanced teleworker uses 880, both use IP phones.

google: "at\_a\_glance\_c45-652500.pdf" for details

The Cisco Virtual Office Solution for the Enterprise Teleworker is implemented using the Cisco 800 series ISRs. Each ISR has integrated switch ports that then connect to the user's broadband connection. The solution uses a permanent always-on IPsec VPN tunnel back to the corporate network. This architecture provides for centralized IT security management, corporate-pushed security policies, and integrated identity services. In addition, this solution supports the enterprise teleworker needs through advanced applications such as voice and video. For example, the enterprise teleworker can take advantage of toll bypass, voicemail, and advanced IP phone features not available in the PSTN.

Enterprise Teleworker Module

The enterprise teleworker module consists of a small office or a mobile user who needs to access services of the enterprise campus. As shown in Figure 2-14, mobile users connect from their homes, hotels, or other locations using dialup or Internet access lines. VPN clients are used to allow mobile users to securely access enterprise applications. The Cisco Virtual Office solution provides a solution for teleworkers that is centrally managed using small integrated service routers (ISR) in the VPN solution. IP phone capabilities are also provided in the Cisco Virtual Office solution, providing corporate voice services for mobile users.

**NEW QUESTION: 4**

You are employed as a network administrator at ABC.com. ABC.com has an active directory domain named ABC.com. ALL servers on the ABC.com network have Windows Server 2012 R2. ABC.com has a server, named server 1, which runs the windows deployment services server role.

You make use of windows server backup to back up server 1. Subsequent to a disk array on server 1 becoming corrupt, you swap the disk array with new hardware.

You now need to recover server1 in the shortest time conceivable.

Which of the following actions should you take?

- A. you should consider restoring server1 from a snapshot backup
- B. you should consider restoring server 1 from an incremental backup
- C. you should consider restoring server 1 from a differential backup
- D. you should consider making use of the Windows Server 2012 R2 installation media to start server1

**Answer: D**
