NEW QUESTION: 1

Identify three tasks that can be performed using the General Accounting Dashboard.

- A. Pay invoices to a supplier.
- B. Get a high level view of the state of a department.
- C. Take immediate action and drill down to uncover more detailed information.
- D. Receive instant visibility of transaction statuses.
- E. Pay invoices to a contractor.
- F. Configure user responsibilities.

Answer: B,C,D

Explanation:

Work areas are fundamentally the places for getting the work done and are focused on a particular business goal. Work areas enable you to:

- *(A) Receive instant visibility of transaction statuses
- *(B) Take immediate action and drill to uncover more detailed information
- *(C) Get a bird's-eye view of the state of your departme

B: From the General Accounting Dashboard, an accounting manager can easily drill down to detailed transactional information with a single click. Clicking the link of the unbalanced journal in question navigates you away from the dashboard and directly to that journal.

Note:

* General Accounting Dashboard that enables you to:
Set up continuous monitoring of key accounts based on your own defined threshold levels

Verify the accuracy and completeness of journal batches and intercompany transactions

Instantly monitor the status of your close process at both ledger and subledger levels The unified General Accounting Dashboard provides accounting managers with all this information on one page.

* Oracle Fusion General Accounting Dashboard. The General Accounting Dashboard provides accounting managers with direct visibility into accounts that they want to monitor, the status of their journal batches, intercompany transactions, and the close process—all on one page. See figure below.
