B2B-Commerce-Administrator PDF Version: The PDF version is available for people who are used to reading and practicing in paper.

Our B2B-Commerce-Administrator exam preparation can not only give a right direction but also cover most of the real test questions so that you can know the content of exam in advance.

Our after sales services are the best in the world, You can use our B2B-Commerce-Administrator exam prep immediately after you purchase them, we will send our product within 5-10 minutes to you.

NEW QUESTION: 1

Your network contains an Active Directory domain named contoso.com. The domain contains a server named Server1. Server1 has the DHCP Server server role and the Network Policy

Server role service installed.

Server1 contains three non-overlapping scopes named Scope1, Scope2, and Scope3. Server1 currently provides the same Network Access Protection (NAP) settings to the three scopes. You modify the settings of Scope1 as shown in the exhibit. (Click the Exhibit button.)

You need to configure Server1 to provide unique NAP enforcement settings to the NAP non-compliant DHCP clients from Scope1. What should you create?

- A. A connection request policy that has the Service Type condition
- B. A connection request policy that has the Identity Type condition
- C. A network policy that has the Identity Type condition
- D. A network policy that has the MS-Service Class condition

Answer: D

Explanation:

A. Restricts the policy to clients that have received an IP address from a DHCP scope that matches the specified DHCP profile name. This condition is used only when you are deploying NAP with the DHCP enforcement method. To use the MS-Service Class attribute, in Specify the profile name that identifies your DHCP scope, type the name of an existing DHCP profile.

NEW QUESTION: 2

You are monitoring the network of your organizations. You notice that:

1. There are huge outbound connections from your Internal Network to External IPs
2. On further investigation, you see that the external IPs are blacklisted
3. Some connections are accepted, and some are dropped
4. You find that it is a CnC communication

Which of the following solution will you suggest?

- A. Both B and C
- B. Block the Blacklist IP's @ Firewall
- C. Clean the Malware which are trying to Communicate with the External Blacklist IP's
- D. Update the Latest Signatures on your IDS/IPS

Answer: A

NEW QUESTION: 3
