How do you set up a specialized shop in Magento in addition to the main store?

- A.** Create a new store with its own root category and store view within the same. Assign products to the store view
- B.** Create a new store view with its own root category within the main store. Assign products to the new categories tree
- C.** Create a new website, store, and store and keep the same category. Assign the required categories and products to the website.
- D.** Create a new website with one store and its own root category and one store view Assign the required products to the new website.

Answer: B

NEW QUESTION: 2

What is a requirement for Top of Rack (ToR) switch VxRail node ports?

- A.** Disable Link Aggregation
- B.** Enable IGMP Querier
- C.** Enable Spanning Tree

D. Disable IGMP Snooping

Answer: A

NEW QUESTION: 3

You work in an office and you are assigned with the task of creating a document. The document has to be shared with all the employees. You want to restrict the edit, copy, and print permission of all the shared users. What will you do to accomplish the task?

A. Mark the document as final.

B. Encrypt the document.

C. Restrict the permission for the document.

D. Inspect the document.

Answer: C

Explanation:

Restrict Permission is used to grant access to other users while restricting their ability to edit, copy, and print. It is also used to set the expiration date for a document. Answer option A is incorrect. Inspecting the document will remove hidden information from it. Answer option D is incorrect. Encrypting the document will protect it with the help of a password. Answer option B is incorrect. Marking the document as final will make it read-only.
